

A LOOK INSIDE NGN'S COLOCATION SITES

IN TODAY'S MARKET ECONOMY, YOU CAN'T AFFORD TO GO WITHOUT COLOCATION SERVICES

Be sure that your precious data is in the hands of a secure, reliable provider. Colocation services can be the answer, whether you're looking for disaster recovery for your business, remote backup or data security offsite.

SECURE, STATE-OF-THE-ART HVAC FACILITY

With proximity card access 24x7x365 and secure racks and cabinets, your equipment stays safe and secure, while maintaining ideal temperature and humidity.

REDUNDANT POWER

Uninterruptable power supply systems with N+1 redundancy levels, backup generator systems and high-power capabilities provide you with unstoppable power.

DIVERSE FIBER FEEDS

Our diverse fiber feeds provide reliable, redundant access to countless miles of NGN fiber throughout the Southeast region.

COLOCATION SERVICES

NGN IS A REGIONAL FIBER OPTIC SYSTEM WITH OVER 1,600 MILES OF FIBER OPTIC INFRASTRUCTURE.

Our network's fully-redundant, future-proof "ring" design provides a level of reliability (99.999%) that is unprecedented in this region of rural Georgia.

- 260-mile core provides dual route redundancy
- 100% fiber optic MPLS network to the cloud
- Gigabit plus speeds to your business
- Terabit core network capacity
- Fully symmetrical – same speed up/down

WHY COLOCATE WITH NGN?

If you need a fully-managed colocation facility in North Georgia, look no further than NGN. With connections to many major carriers, providers, e-commerce sites, Internet gateways and other colocation facilities... NGN has you covered.

- Facilities strategically located on the outskirts of major cities for easy access and to ensure an added level of security.
- Access to major communications carriers, networks and other large customers
- Third party certified highest carrier-grade standards
- 99.996% throughput rate
- Data travel latency rate of .00215 microseconds for 10GB to travel entire 260-mile core

NGN has colocation space available at multiple sites in Georgia including Blairsville, Cleveland, Cumming, Dahlonega, Dawsonville and Young Harris.
